

## Empty Song

I'm in love with a day  
I'm in love with a feeling inside of me...  
I unlocked it with a key  
The key formed inside of me...

We unlocked our minds  
We used the big key with an "e"

e stands for Empty  
e stands for Equilibrium  
e stands for Earth  
e stands for ... (singers fill it in)  
e stands for ... (singers fill it in)  
e stands for ... (singers fill it in)

empty isn't so bad  
empty is just a state of being  
sometimes you gotta get empty  
to get full again

it's good to empty your mind  
empty your body  
empty your calendar  
from time to time...  
we are human beings  
unlike technology, we all can't grow forever!  
living in equilibrium and harmony...

living the empty life  
it's not forever  
it's just for now...  
equilibrium  
I'm a human being!  
sometimes you gotta get empty to get full again...

from now on, whenever I see a key  
I think about this feeling inside of me...  
I think about this special day...  
and now it's time to say...

empty day  
empty day  
you are the reason I'll stay...  
unlocked forever...  
empty day
